

ARCHITECTURE CAN CHANGE A CITY

"Italians make the world more beautiful with their famous art and buildings. My hometown city of Santa Maria is richer for having at its southeast gateway a handsome new building of Tuscan design and gorgeous Italian plaster. I welcome this elegant structure."

Larry Lavagnino, Mayor of Santa Maria

"In an attempt to create the true look and feeling of an old structure from Tuscany, we used your Rialto Stucco Finish, which gave the building a soft old look almost from the beginning. Our choice included the use of Elastomeric paint, which would not have given us the authentic color variation of an older structure."

Anthony E. Wells, HMW Group, Ltd.
