PRIMERS

FINISH

A resin based protective basecoat for interior and exterior wall surfaces

**RIALTO FINISH** can be used as a matte paint finish or as a high-performance primer. **RIALTO FINISH** is the ideal primer for **RIALTO ANTIQUA**. **RIALTO FINISH** consists of a terpolimer resin, mica, silica, quartz, granite, selected pigments, and special additives that guarantee strong adhesion and crack-resistance.

**PROPERTIES**
- high degree of permanent elasticity
- allows surfaces to breathe: 30 g/m² - 24 hours/ASTM - E96, \( \mu = 2860, Sd = 0.71 \text{m} \)
- does not peel or crack
- high durability
- prevents the formation of mold
- ready-to-use
- can be easily applied using either a paintbrush, roller or conventional sprayer
- non-flammable
- abrasion resistant
- specific gravity: 1.48 ± 0.02 kg/l
- pH: 7.5 ± 0.2
- volume solids: 64% ± 0.5
- VOC: max 30 g/l (including pigment)

**COVERING CAPACITY**
Coverage when rolled on is approximately 700 sq. ft. when diluted 10%. When sprayed on, coverage is typically 1000 sq. ft. when diluted 15%.

**PACKAGING**
**RIALTO FINISH** is available in a 15 liter / 52 lb. container

**COLOR RANGE**
**RIALTO FINISH** is available in 32 standard colors, 400 fandeck colors, or we can match any custom color.

**REFERENCES**

**PURPOSES**
**RIALTO FINISH** is an ideal decorative matte finish, and is particularly suited for use in harsh, corrosive, and moist environments. When used as a primer for other **RIALTO** plasters, **RIALTO FINISH** is a very important step, because it prevents cracking, ensures bond and protects the wall from weather.

Prior to use surfaces should be sound and dry. **RIALTO FINISH** can be applied to the following surfaces:
- plaster
- brick
- drywall
- previously painted surfaces (whitewash, washable, oil etc.)

**WORKING INSTRUCTIONS**
- surfaces should be cleaned and loose material removed
- apply one coat of **RIALTO FINISH** (diluted with 10% water) with roller and let dry for at least 12 hours or you may apply **RIALTO FINISH** (diluted with 15% water) with a sprayer and let dry for at least 12 hours
- do not apply **RIALTO FINISH** to brick with evident signs of efflorescence or dampness
- do not apply if there is a risk of rain within 24 hours, or when air surface temperatures are below 41°F (5°C)
- protect from frost and temperatures above 86°F (30°C)
- check with your local department of environmental quality for disposal requirements and recycle whenever possible
